

## Energy Efficient Sprinkler Equipment Application for Rebate

Agriculture Conservation  
Coos-Curry Electric Cooperative

Coos-Curry Electric Cooperative is partnering with the Bonneville Power Administration (BPA) to offer cash rebates to install qualifying new irrigated agriculture system components including pressure regulators, nozzles, sprinklers, gaskets, and more.

### Easy Steps for Participation:

- 1) Purchase and install the qualifying irrigation system components.
- 2) Complete, sign, and submit the Irrigation Efficiency Measures table, Rebate Application, and the supporting receipts/invoices for any qualifying equipment. Receipt must list brand, model number, or other identifying information. Also submit a unique ID number or other method of identifying site of installed measures.
- 3) Mail the Rebate Application and Customer Invoices, within 90 days of purchase, to:  
**Coos-Curry Electric Cooperative**  
**Attn: Energy Conservation**  
**P.O. Box 1268**  
**Port Orford, OR 97465**
- 4) Once the installation has been verified and/or inspected, your application will be processed. It will take approximately 6-8 weeks to receive your rebate payment. Rebates will be applied as an account credit to your active CCEC account.

1. Member Information				
Member Account Name		Contact Name		Phone Number
Service Address			City	State   Zip
CCEC Irrigation Account #	Pump # (Unique Identifier)	Acres Irrigated	Pump HP	Discharge Pressure

2. Sprinkler Equipment Rebate Table			
Measure Description	Rebate per Unit (a)	Est. kWh Savings per Unit (b)	No. of Units (c)
New flow controlling type nozzle for impact sprinklers.	\$4.00 / nozzle	26.73	
Rebuilt or new impact sprinklers.	\$3.75 / sprinkler	26.73	
New nozzle for impact sprinkler replacing existing worn nozzle of same flow rate or less.	\$1.50 / nozzle	36.35	
New nozzle for center pivot and lateral moves	\$1.00 / nozzle	37.42	
New rotating type sprinklers that replace impact sprinklers. (Entire pivot must be upgraded. Flow may not be increased.)	\$4.00 / sprinkler	23.52	
New gasket for wheel lines, hand lines, or portable main line.	\$2.75 / gasket	21.38	
New low-pressure regulators. (Entire pivot must be upgraded.)	\$5.00 / regulator	39.56	
New rotating type sprinklers that replace low-pressure sprinklers. (Entire pivot must be upgraded. Flow may not be increased.)	\$4.00 / sprinkler	23.52	
New multiple configuration nozzles for low-pressure pivot sprinklers.	\$3.00 / sprinkler	47.05	
New multi-trajectory sprays that replace impact sprinklers (Entire pivot must be upgraded. Flow may not be increased.)	\$4.00 / sprinkler	35.28	
New multi-trajectory sprays that replace low pressure sprinklers. (Entire pivot must be upgraded. Flow may not be increased.)	\$1.00 / sprinkler	11.76	
New drain gaskets for wheel-lines, hand lines, or pivots.	\$1.00 / drain	21.38	
New hubs for wheel-lines. (Entire wheel-line must be upgraded.)	\$14.50 / hub	62.01	
New "goose neck" elbow for drop tubes.	\$1.65 / goose neck	7.48	
New drop tube for low-pressure pivot sprinklers (min. 3 feet length.)	\$3.00 / drop tube	7.48	
New center pivot base boot gasket.	\$175.00 / pivot	1338.66	
Cut and pipe press repair of leaking hand-lines, wheel-lines, and portable mainline.	\$10.00 / pipe selection	43.84	
Rebuilt or new wheel-line leveler.	\$0.75 / leveler	2.14	

**3. General Information**

This irrigation program has been developed to encourage energy-efficient equipment and design in irrigation systems. It is an opportunity for irrigation customers to receive a financial rebate and lower their electric bills.

These "deemed" measure rebates are designed to help cover a significant portion of the costs of repairing and replacing specific components that typically help the irrigation system use less energy.

Rebates are for the purchase of specified replacement parts and components for your existing irrigation system. The rebate varies by the sprinkler component or part incorporated in your sprinkler system. The rebate may not exceed the invoice amount for the measure, and shall not exceed the amount listed on the form. Labor, if included, must be shown in per measure cost.

**EXAMPLE:** Your invoiced cost for all new flow-control nozzles is \$2 apiece and the cost of all new gaskets for your irrigation system is \$1.50 apiece on 40 acres with two hand lines, each a quarter of a mile long, you would receive a rebate of \$192

64 nozzles x \$2 = \$128 plus 64 gaskets x \$1 = \$64 for a total of \$192

In this example, payment for the nozzles is based on the invoiced amount since it is less than the rebate listed. Payment for the gaskets is based on the rebate listed because the onvoiced amount is more than the maximum rebate allowed.

**4. Applicant Agreement (please initial)**

	The system is used for irrigation of agricultural crops or pasturage.
	The designated sprinkler parts have been purchased for the sprinkler system at the specified metered service location.
	An itemized receipt or invoice identifying the new equipment purchased accompanies this rebate application.
	I, the undersigned, am authorized to make this application for rebate funds.
	I will provide whatever additional documentation needed to verify the application for funds.
